

GEA Farm Technologies

IQ - The world's first four-way milking cluster ...a brilliantly simple way to milk

Winner of the
RABDF Prince Philip Award 2009
for research and development
in dairy farming

GEA Milking & Cooling | [WestfaliaSurge](#)

GEA Farm Technologies - The right choice.

Benefits at a glance

- ✓ Unique design prevents intra-mammary cross-infection;
- ✓ Improves milk quality, milk yields and milking times;
- ✓ Easy cluster attachment improves operator efficiency.

Plus

- ✓ Narrow profile - suits rear-leg and side-leg milking;
- ✓ Redistributed weight gives excellent adherence to the udder;
- ✓ Individual quarter design for optimal milk flows;
- ✓ Unrestricted milk flow with 1-piece silicone liner;
- ✓ Low cleaning and maintenance schedule;
- ✓ 5-year warranty available.

IQ redefines the milking process saving time & money
